

Bio: Adrian Vazquez

My name is Adrian Vazquez, and I have been working in the field of mental health and social services for almost 10 years. Most recently, worked as a Program Supervisor for individuals with disabilities through the Orange County Regional Center. As a supervisor, my role was to provide supervision for Behavior Interventionist, manage and modify client progress, ensure clients safety/welfare, empower their daily living routines, provide parent training, and lead social events. My goal and responsibilities were to develop case formulas, treatment plans, hire, train, monitor, and apprise employee performance. Worked directly/closely with RCOC, IHSS, OCTA, SSI, and other programs that benefit our individuals within Orange County. I am super excited to be working at New Horizons. Especially, eager to meet all our members and families. My goal is to create a great experience for our individuals, family, and community through prevention and intervention strategies. Excited to work alongside dedicated, self-driven colleagues that want to help provide/improved health and mental health outcomes for families, children, youth, and seniors within.
